

Unit 4 ClientConnector Version 4.8.1

New XML audit file

The following XML audit file has been added:

- Audit file 3.0 (XAF)

Existing connectors

Several connectors have been modified. A summary of important changes:

- **Unit 4 Accounting / Multivers**
The payment differences are now included in the subledgers.
- **Auditfile 2.0 - Minox**
When loading a Minox audit file, the **Entry date** field and **Processing date** field are reversed. As a result the data is easier to interpret in Unit 4 AccountAnalyser.
- **Snelstart 7 / 8 MS Access**
The display of companies from Snelstart has been improved.
